Fellowship Available
Biomedical Engineering, Louisiana Tech University
Available After September 1, 2018

A Board of Regents fellowship is available for an incoming Ph.D. student in Biomedical Engineering at Louisiana Tech University. It provides the student with $32,000/year, plus a full (in state and out-of-state) tuition waiver for four years. U.S. citizenship or permanent residency is required. The student may choose any research advisor at Louisiana Tech who is affiliated with the Center for Biomedical Engineering Research (CBERS). The general research areas are neural engineering and micro/nano biomedical engineering. Some specific topics include

1. Epilepsy
2. Traumatic Brain Injury
3. Biosensors
4. Alzheimer’s Disease
5. Platelet Function
6. Brain Cell Growth and Signaling
7. Cancer Diagnostics and Treatment
8. Drug Delivery
9. Tissue Engineering
10. Brain Cell Growth and Migration
