The J. Crayton Pruitt Family Department of Biomedical Engineering invites applications for multiple 12-month, non-tenure track, full-time positions at the rank of Lecturer, Senior Lecturer or Master Lecturer.

We seek outstanding candidates who have a Ph.D. in biomedical engineering or bioengineering or a closely related discipline.

The successful candidate will be expected to teach biomedical engineering undergraduate and graduate courses, collaborate with faculty in and outside the department and be involved in service to the university and the profession.

Candidates with experience or willingness to engage in activities that contribute to diversity and inclusion are especially encouraged to apply.

We are hiring: Lecturer, Senior Lecturer or Master Lecturer

Deadline: February 1, 2019

The faculty members will instruct selected biomedical engineering courses depending on the specific needs of the department. In particular, there are needs in the areas of:
- Biomedical instrumentation
- Engineering design
- Quantitative physiology and/or
- Biomedical engineering fundamentals

Contribute to continuous curriculum improvement, academic program ABET accreditation and developing new educational initiatives.

Successful submission and funding of grants focused on engineering education are strongly encouraged.
